

Reporting capabilities in the Palm of your Hand

With Pocket Plumber software and any PDA equipped with Windows Mobile 5.0 or Windows Mobile 2003 Operating System, you can record survey events easily and quickly, provide your customer with a Graphic Report of their Survey and create invoices based on billable hours.

- Use the preloaded codes or easily modify them to suit your needs Quick Buttons let you store up to four commonly used codes for faster reporting
- Store client names.
- Your Logo can be included on your reports
- Billable Hourly Rate can be modified per project
- Notes can be programmed so recommendations can easily be added to your reports
- Desktop Manager can import modifications into multiple PDA units to save programming time
- Desktop Manager also enables you to add pictures to your survey from digital video files
- Reports can be printed from the PDA or Desktop Manager
